Support FSX & Flight Sim sign the petition

Coosbay encourages you to follow the following link <http://www.supportflightsim.com/> or go to our web site at www.Coosbayhops.com and sign the petition today!

This petition is to serve as an open letter of support for both the ACES studio members and the Microsoft Flight Simulator franchise as a whole. Over its 25+ year history, the franchise has built an unmatched fan-base stretching across generations.

With the closure of the ACES studio, the loyal supporters of the franchise are concerned with the continuity and quality of the brand. Though the franchise remains the property of Microsoft Corporation, the real value remains in the dedication and creativity of the ACES studio members that have now been lost.

In addition, there is concern within the community that Microsoft has "abandoned" its supporters by taking this action.

As you know, the franchise has a very strong 3rd party developer community that has invested countless hours and dollars to build applications and hardware to support and enhance the franchise. Without a change in course, it is a very real possibility that this industry, and its fans may look to competing products in the near future leading to millions of dollars of lost revenue.

Check for server password at www.coosbayhops.com

As a member of CoosBayHops you should know, if you do not know already, we have a full time server that is up 24/7 to all our members. If it happens to be locked, you may get the password by going to our website www.coosbayhops.com, click on the Members area, then go to server password.

You should check the website regularly to see if the password has changed. Remember, on the server there is NO ATC (as always with CoosBay), just be sure to announce your intentions on the com radio, Freq. 118.75. Please don't use the coms for chit chat; other pilots need to use them too. So, jump into your favorite aircraft and come join us in the great open sky. Don't forget to download the new updated airport package.

Put yourself on the map and find a friend!

Update your profile for the City you live and members in your area notice you on the map. And as they include the city they live in, you may find a neighbor or a friend in the Coosbay family. Update your profile with the City you live in at <http://www.coosbayhops.com/?display=BBCA7232-B0BD-4FF9-A678-230CAF0B1CD4>

Witness aerial demonstrations by the Navy's Blue Angels, Team Oracle, and the Patriots Formation Team!

Performers:

Blue Angels

Team Oracle

Julie Clark

United Airlines

Cyto Sport T-33

USCG

Tim Weber

Patriots

Lucas Oil Pitts

The San Francisco Bay Area has a long and proud connection with the US Navy dating back to at least 1854 when the Mare Island shipyard in Vallejo commenced shipbuilding operations. Navy Lieutenant Frederick Freeman and Marine Lieutenant Colonel Lincoln Karmany led firefighting and security operations during the 1906 earthquake, which is one of the reasons the "Great White Fleet" was so warmly received when it sojourned in San Francisco from May to July 1908. World War II brought over 1.5 million servicemen through San Francisco, Oakland and Alameda, many of whom settled here when they returned.

In the last 20 years, as the Navy moved its bases to other locations, the physical presence of active duty military personnel in the Bay Area diminished. In 1990 there were six major Navy installations in the Bay Area, but by 2000 there were none. Nevertheless, the attachment remained, animated in part by these veterans and their families.

One of the purposes of our annual Fleet Week celebration is to remind us of this history and to keep the role of the Navy in the forefront of our consciousness. Of course the story of the Navy, like the story of San Francisco, is the chronicle of individual people, and Fleet Week gives Northern Californians the opportunity to express their gratitude to those individuals currently serving in the Navy, Marines and Coast Guard. Since the modern Fleet Week commenced in 1981, San Franciscans have been extremely generous and cordial to our military visitors, reflecting both our nautical heritage and our awareness of the perilous state of the world for most of that period. Nevertheless, one can't say enough about the character, capability and bravery of the men and women currently serving in the military nor can we ever adequately thank them.

Of course a celebration isn't really a celebration without entertainment, and in 2009 the Blue Angels will once again thrill us as the highlight act of our air show. The air show will also feature Sean Tucker and his Team Oracle, Julie Clark, the Patriot Jets and several other exciting and interesting aircraft acts. Saturday's Parade of Ships will include three vessels from the Canadian Navy, the Coast Guard cutter USCGS Boutwell as well as the LPD USS Green Bay from the US Navy.

CHICKEN WINGS
